I0696

Description:

Ehda's **I0696** is a injection-moulding grade high density polyethylene. Good impact strength, easy processing, high rigidity especially suitable for usage in crates, pallets, seats and house holdware.

Ehdapolymer:
In addition to producing quality products, our mission in Ehda polymer pack, is technical support for products as well as innovative solutions and providing appropriate formulation in the field of producing plastic products.

Applications:

Injection Moulding Grade for Pallets, Boxes and Crates.

Specifications:

Property	Unit	Value	Test Method
Melt Flow Rate (MFR) (190 °C/2.16Kg)	g/10min	6 ± 1	ASTM D1238
Density	g/cm3	0.958	ASTM D792
Humidity	%	≤0.25	ASTM D4442

Processing Technique

Recommended Process Temperature 150-170 ºc
However, the actual processing conditions depends on size, machine and formulation of the customer.

Packaging and Storage:

Packaged in 25kg PE bags. To be stored in dry and cool conditions, protected from direct sunlight and rain pour.

* Values shown are average and are not to be considered as product specification
